

Probation Parole Agents complete tactical course

TUPELO – Lee County Probation and Parole Agents John Heagy (left) and Jeffery Willard (right) participated in the Tactical Emergency Casualty Care course for Law Enforcement at the Regional Counterdrug Training Academy (RCTA) in Meridian.

Over three days, the training focused on building each officer's tactical medical skills through classroom presentations, skill demonstrations, hands-on practice, field exercises, and direct instructor feedback. By incorporating the principles of the Tactical Emergency Casualty Care (TECC) course and applicable medical skills, civilian law enforcement officers will greatly enhance their ability to save lives.
